

## Cold degreasing and cleaning agents on solvent base

Application	Product	Product parameter	Product features	Your advantage	Your benefit
Cleaning before painting Cold degreasing	ESKAPON S 115	Flashpoint: 28°C, Evaporation rate 20 Aromatic compound content <0.1%	Mild odour, because <b>free from aromatic compounds</b>  volatile	Free from aromatic compounds, thus pleasant odour,  Residue-free drying	Beneficial in health and safety  Medium volatile drying, advantageous
Cleaning before painting Cold degreasing	ESKAPON S 116	Flashpoint: 24°C, Evaporation rate 26 Aromatic compound contents approx. 18%	volatile	Residue-free drying	Medium volatile drying, advantageous for large surfaces  Dissolves resinous oils, grease, tar spots and glue
Cleaning before painting Cold degreasing	ESKAPON S 196	Flashpoint: 42°C, Evaporation rate 50 Aromatic compound content <0.1%	Mild odour, because <b>free from aromatic compounds</b>  Medium volatile	Free from aromatic compounds, thus pleasant odour,  Residue-free drying	Beneficial in health and safety  Medium volatile drying, advantageous for large surfaces
Cleaning before painting Cold degreasing	ESKAPON S 143	Flashpoint: 41°C, Evaporation rate 50 Aromatic compound contents approx. 18%	Medium volatile	Residue-free drying	Medium volatile drying  Advantageous for large surfaces  Dissolves resinous oils, grease, tar spots and glue

## Cold degreasing and cleaning agents on solvent base

Cleaning before painting Cold degreasing	ESKAPON S 186	Flashpoint: 62°C, Evaporation rate 160 Aromatic compound content <0.1%	Mild odour, because <b>free from aromatic compounds</b>  Evaporates slowly	Free from aromatic compounds, thus pleasant odour,  residue-free drying, low	Beneficial in health and safety  Low evaporation rate
Cleaning before painting Cold degreasing	ESKAPON S 565	Flashpoint: 62°C, Evaporation rate 90 Aromatic compound content <0.1%	Mild odour, because <b>free from aromatic compounds</b>  Evaporates slowly	Free from aromatic compounds, thus pleasant odour,  residue-free drying, low	Beneficial in health and safety  Low evaporation rate
Cleaning before painting Cold degreasing	ESKAPON S 94	Flashpoint: 62°C, Evaporation rate 160 Aromatic compound contents approx. 18%	Evaporates slowly	residue-free drying, low  inflammability	Medium volatile drying  advantageous for large surfaces  Dissolves resinous oils, grease, tar spots and glue  Low evaporation rate
Cleaning before painting Cold degreasing	ESKAPON S 588	Flashpoint: 100°C, Evaporation rate > 4000 Aromatic compound content <0.1%	Mild odour, because <b>Free from aromatic</b>	Low inflammability	Compliance with 31. BImSchV
